

AN EFFICIENT, NATURAL
AND COST EFFECTIVE
SPILL CONTROL SOLUTION
100% BIO DEGRADABLE

CONTROL SPILLS IN THE WORKSHOP OR ON THE ROAD

STEP 1

Secure the area and surround the spill with RYCO Premium Sweep.

STEP 2

Cover the entire spill with RYCO Premium Sweep.

STEP 3

Pad the absorbent down with the broom over the entire spill.

STEP 4

Brush firmly backwards and forwards in 10 to 15cm sections at a time.

STEP 5

Gather used RYCO Premium Sweep together for collection and disposal.

RSKIT

RSK-15K

GRANULAR SWEEP 15 KG

RYCO Granular Sweep. 15kg refill bag.

RYCO SAFETY GUIDE

SAFETY & ENVIRONMENTAL COMPLIANCE

Spill response, and the resulting waste to be disposed of, are governed by regulations to protect people and the environment.

Compliance with these regulations is generally met through the use of commercial spill kits containing high performance absorbents, personal protective equipment, written response procedures / guidelines and accessories to ensure proper storage and disposal of spill wastes.

RYCO offers you a range of spill response products that comply with current legislation and Australian Standards, helping you:

- Meet your legal requirements: ensure your Environmental “due diligence”, as well as your OH&S “duty of care”
- Reduce your spill clean-up costs
- Meet your environment management plan for waste reduction, increased use of recycled materials and use of products with a low carbon footprint

NOTE: Clay granular absorbents should NOT be disposed of in landfill.

HAZARDOUS AND NON-HAZARDOUS LIQUIDS

FUELS AND LUBES

HYDRAULICS FLUIDS

COOLANTS

SOLVENTS

(ketones, halocarbons, alcohols, etc.)

PAINTS

(oil based and water based)
